

# Questions To Ask A Vet

A trip to the vet can feel overwhelming, and you may forget to ask basic questions about your dog's health. Below is a guided list of questions based on your dog's age to reference at their next vet visit. This resource can help you feel confident about the conversations you have with your vet.

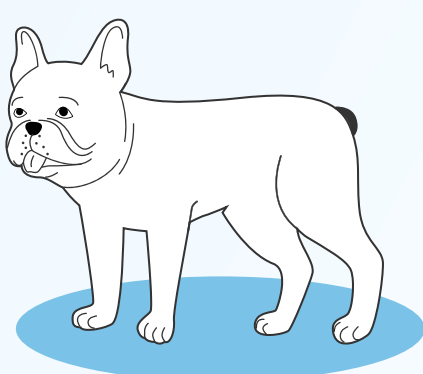

---

## PUPPY

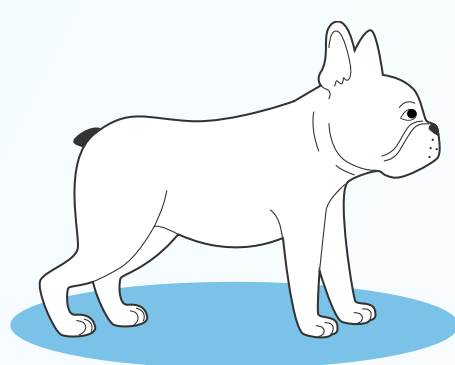

- Which core vaccines are needed for my puppy, and at what age should they get them?
  - Am I feeding my puppy the proper diet for healthy growth?
  - How often should I feed my puppy?
  - Do I need to clean my puppy's teeth? If so, what's the best way to do it, and how often?
  - When should I spay or neuter my puppy, if at all?
  - Should I get pet insurance for my puppy?
- 

## ADULT DOG

- Is my dog up to date on their vaccinations?
  - What preventative measures should I take to maintain my dog's overall health?
  - Is my dog getting enough exercise?
  - Are my dog's gums and teeth healthy?
  - When should my dog get bloodwork done?
  - Are there any behavioral changes I should be aware of in my dog?
- 

## SENIOR DOG

- What common illnesses or health conditions is my dog susceptible to at this age?
- Are there any changes I should make to my senior dog's diet or exercise routine?
- How can I help my dog maintain mobility and joint health as they age?
- Should my dog be taking any nutritional supplements?
- What vaccinations will my senior dog need?
- Are there any signs of vision loss or changes that I should be aware of?
